

Agenda
South Mountain Citizens Advisory Team Meeting
Thursday, February 23, 2006
5:30 – 9:00 p.m.

Gila River Indian Community District 6 Komatke Center - Learning Center Meeting Hall
Northwest corner of 51st Avenue and St. John's Road (just north of Pecos Road)

- 5:30 p.m. **Welcome** Theresa Gunn, GCI
- Explain public meeting process
- Project Update** Amy Edwards
- Questions from last meeting: HDR
 - Is there a required release rate (flow, gpm) over area when directing rainwater, runoff to lower area? If there is, what is this rate and what engineering principles are used to control this rate.
 - Check on the area near 59th Avenue and Baseline regarding Section 4(f) issues. Properties appear on graphics but not in listings.
 - Provide economic totals for each alignment.
 - Review the noise information for the west side alternatives provided to the CAT.
- 6:30 p.m. **Technical Report Summary Review and Updates**
- Air Quality Jack Allen, HDR
 - What are the regional ambient air quality standards for CO₂?
 - Aren't PM_{2.5} reading to be included in the EIS? Also, why wasn't there a discussion on PM_{2.5} with projects on same? Lindy Bauer, MAG
 - Is there current air quality monitor data at the school located in the northeast quadrant of the SR51/202L interchange? Would there be pre and post freeway data available? Dave Pekara, VSI
- 7:00 p.m. **Break**
- 7:15 p.m. **Technical Report Summary Review and Updates (Continued)**
- Local Access Update Amy Edwards
 - Minor alignment changes HDR
 - On-going Studies
- 7:45 p.m. **SMCAT Evaluation Process** Theresa Gunn, GCI
- Continue refining evaluation criteria
- 9:00 p.m. **Adjourn** All
- Next CAT Meeting:** March 2, 2006
- Topics: Traffic Analysis
